DURGA MANOHAR MALLELLI

+91 8328291394 — durgamanoharmallelli@gmail.com — DurgaManohar$_1$5 — DurgaManoharMallelli

PROFESSIONAL SUMMARY

Computer Science Engineering student graduating in 2027 with strong foundations in Software Engineering, Object-Oriented Programming, Data Structures, Algorithms, and DBMS. Skilled in developing responsive full-stack web applications using React.js, JavaScript, Node.js, Express.js, and MySQL, with knowledge of Spring Framework and Spring MVC. Experienced in designing RESTful APIs, modular backend systems, secure authentication, and relational databases. Strong problem-solving and debugging abilities with a focus on clean, maintainable, and scalable software.

TECHNICAL SKILLS

Languages	Java, SQL, JavaScript
Frontend Development	React.js, HTML5, CSS3, JavaScript
Backend Development	Node.js, Express.js, RESTful APIs, JDBC
Frameworks	Spring Framework, Spring MVC
Databases	MySQL, Relational Database Design, SQL
Tools	Git, GitHub, VS Code, Postman
Core Concepts	Data Structures and Algorithms, OOP, DBMS, Operating Systems, Exception Handling
Soft Skills	Problem Solving, Communication, Leadership, Teamwork, Adaptability, Time Management
Hobbies	Coding, Exploring New Technologies, Problem Solving

EDUCATION

B.Tech in Computer Science Engineering — **2023 – 2027**
Malla Reddy University, Hyderabad — **CGPA: 8.82**

Intermediate Education — **2021 – 2023**
Krishnaveni Junior College, Khammam — **97.4%**

Secondary School Education (SSC) — **2020 – 2021**
ZPHS Thumburu — **CGPA: 10.0**

PROJECTS

STAY SYNC – Student Hostel & PG Finder System *React.js, Node.js, Express.js, MySQL*

- Architected an end-to-end web platform using React.js and Node.js for housing searches near academic institutions.
- Designed and integrated secure JWT authentication and Role-Based Access Control (RBAC) to separate student and admin workflows.
- Engineered RESTful API endpoints for CRUD operations across user, hostel, and booking modules.
- Modeled a normalized MySQL database structure to ensure relational data integrity and reduce data redundancy.
- Used Git and GitHub for structured version control and incremental development.

Season Guard – Disease Awareness & Prevention Platform *React.js, Node.js, MySQL*

- Developed a full-stack health awareness platform providing seasonal disease information, prevention guidelines, and health-related resources.
- Implemented reusable and responsive React.js components to improve user experience across devices.
- Built a modular Node.js backend connected to MySQL for efficient application data storage and retrieval.
- Applied separation of concerns between routing, business logic, database operations, and presentation layers.

CERTIFICATIONS

- **Java Full Stack Internship Credential** – EduSkills Academy
- **CS50 Database with SQL Certificate** – Harvard University
- **Programming Using Java** – Infosys Springboard
- **Data Structures and Algorithms Using Java** – Infosys Springboard

ACHIEVEMENTS

- **Winner** – Hackathon 2K25 Web Development Challenge, Malla Reddy University.
- **National Means-cum-Merit Scholarship (NMMS)** – Ministry of Education, Govt. of India; awarded Rs. 12,000/year for 4 consecutive years based on competitive merit.
